Day4	<p style="text-align: center;">Walking to Kara-kabak campsite (5-6h walking)</p> <p>From the place we begin our trek on the western part. We pass several foothills along Chong-Alay ranges. Basically High mountain meadows located above the subalpine mountains. And alpine plants are similar to each other. This is due to their adaptation to similar habitats: a short vegetation period, rapid changes of temperature cold, humidity and dryness. Our overnight is in tent</p>	<p>Lunch on the route Dinner and B&B in tents</p> <p style="text-align: center;">guide</p>
Day5	<p style="text-align: center;">Karakabak-Kosh Kol lake (6-7h)</p> <p>In the continuation of our trip we pass to Lake Kosh-Kol along the foothills. Basically, this region occupies a desert in both; in valleys and in the foothills (3000-4000 m above sea level). This is facilitated by a dry continental climate, the presence of stony-gravel spaces, and salinity of soils. Mainly there are cryophilic and halophytic shrubs and semi shrubs, ephemera. Of the above ecological groups of plants in the deserts, ephemerals predominate.</p> <p>This gives a special views as a pyramid over the mountains and panoramic views of the Alai Valley</p>	<p>lunch en route Dinner, B&B in tent</p> <p style="text-align: center;">guide</p>
